---

## Professional Summary

DevOps Engineer with 4+ years of experience designing, implementing, and maintaining CI/CD pipelines, cloud infrastructure, and automation tools. Skilled in improving system reliability, deploying scalable applications, and collaborating with development teams to streamline software delivery.

---

## Technical Skills

- **CI/CD:** Jenkins, GitHub Actions, GitLab CI, CircleCI
  - **Cloud Platforms:** AWS (EC2, S3, Lambda, CloudFormation), Azure, GCP
  - **Containerization & Orchestration:** Docker, Kubernetes, Helm
  - **Configuration Management:** Ansible, Terraform, Puppet
  - **Monitoring & Logging:** Prometheus, Grafana, ELK Stack
  - **Scripting & Programming:** Python, Bash, Go
  - **Version Control:** Git, GitHub, GitLab
- 

## Professional Experience

### DevOps Engineer | Tech Solutions Inc. | Jan 2021 – Present

- Designed and maintained CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 40%.

- Migrated legacy applications to AWS using Terraform and CloudFormation, improving system scalability.
- Implemented containerized workflows with Docker and Kubernetes, enabling consistent deployment across environments.
- Monitored system performance with Prometheus and Grafana, proactively resolving 95% of incidents before impacting users.
- Automated repetitive tasks using Python and Bash scripts, saving 10+ hours of manual work weekly.

### **Junior DevOps Engineer | CloudWorks Ltd. | Jun 2019 – Dec 2020**

- Assisted in the deployment and maintenance of microservices applications on Kubernetes clusters.
- Managed configuration and infrastructure as code using Ansible and Terraform.
- Supported monitoring and alerting setup using ELK Stack, reducing incident response time by 30%.
- Collaborated with development teams to troubleshoot deployment issues and optimize workflows.

---

## **Education**

### **Bachelor of Technology in Computer Science**

University of Example | 2015 – 2019

---

## **Certifications**

- AWS Certified DevOps Engineer – Professional
- Docker Certified Associate
- Certified Kubernetes Administrator (CKA)

---

## Projects

**Automated Deployment Pipeline** – Built a CI/CD pipeline using Jenkins, Docker, and Kubernetes to automate deployment of a multi-service web application.

**Infrastructure as Code Templates** – Created reusable Terraform and Ansible templates for deploying AWS resources consistently across multiple environments.
